

Employment Services

A real chance. It's frustrating when an individual has a plan with funding for employment services—but no opportunity for employment. We provide a variety of opportunities to fit different schedules and capacities.

A real future. We have community partnerships, such as "The Crew" (see below), that pays competitive wages **at or above minimum wage** and this is more than just employment. This is about professional development. The job skills developed here can translate to a wide arrange of outside opportunities and direct community development.

"The Crew"

We have partnered with "The Crew" to help people looking for employment. Work in an active setting by joining The Crew, a company that offers a variety of opportunities across multiple communities. These opportunities include:

- Landscaping/Grounds Keeping
- Facility Maintenance
- Interior Design
- Receptionist
- Creative Arts
- Gardening
- Scheduling Assistant
- Snow Removal
- Painting
- Janitorial
- Fleet Services
- HR - Human Resources Coordinator
- And Much More

The future starts today! For more information, contact Julie Lourenco at 651.368.1815 or JulieL@BridgesMN.com

Real Jobs. Real Wages.

No matter where a person is in their career path, we're here to help people along the way.

Bridges MN offers employment services to all individuals with a waiver. We believe everyone deserves a fair wage and an opportunity to succeed. People may engage with all phases or a specific phase suited to their journey.

Exploration

The Exploration phase is designed to support individuals with little or no work experience. Exploration includes a skill assessment along with peer-to-peer mentoring and potential job shadowing so individuals can make an informed choice about potential career opportunities.

Development

The Development phase is best suited for someone who knows they'd like to start a career or transition between careers. During the Development phase, Bridges MN works with individuals on resumés, communication and interviewing skills, and more.

Support

The Support phase is ideal for someone who already has a job and is looking for help retaining, progressing and succeeding in that position. This phase offers training for position-specific skills and skills required to retain employment. We also offer direct support for employment with immediate opening on "The Crew" (see page 2).
